

Europace

Volume 10 No. 7 July 2008

EDITORIALS

- The 'Happy Ending Problem' of cardiac pacing? Cardiac resynchronization therapy for patients with atrial fibrillation and heart failure after atrioventricular junction ablation** 779
Tamas Szili-Torok, Attila Mihalcz, and Luc Jordaens
- What role for autonomic dysfunction in Brugada Syndrome? Pathophysiological and prognostic implications** 782
Thomas Wichter
- Interleukin-8 and atrial fibrillation** 784
Vojtech Melenovsky and Gregory Y.H. Lip

REVIEWS

- Prediction of the atrial flutter circuit location from the surface electrocardiogram** 786
Caroline Medi and Jonathan M. Kalman
- Update on the pathophysiological basics of cardiac resynchronization therapy** 797
Angelo Auricchio and Frits W. Prinzen

CLINICAL RESEARCH

Cardiac resynchronisation therapy

- Validation of a peak endocardial acceleration-based algorithm to optimize cardiac resynchronization: early clinical results** 801
Peter Paul Delnoy, Emanuela Marcelli, Henk Oudeluttikhuis, Deborah Nicastia, Fabrizio Renesto, Laura Cercenelli, and Gianni Plicchi

- Benefit of cardiac resynchronization therapy in atrial fibrillation patients vs. patients in sinus rhythm: the role of atrioventricular junction ablation** 809
António M. Ferreira, Pedro Adragão, Diogo M. Cavaco, Rui Candeias, Francisco B. Morgado, Katya R. Santos, Emilia Santos, and José A. Silva

ARVC and Brugada syndrome

- Arrhythmogenic right ventricular dysplasia-cardiomyopathy and provokable coved-type ST-segment elevation in right precordial leads: clues from long-term follow-up** 816
Stefan Peters

- Significance of cardiac autonomic neuropathy in risk stratification of Brugada syndrome** 821
Mohamad Ali Babae Bigi, Amir Aslani, and Arsalan Aslani

Pacing

- Atrial vs. dual-chamber cardiac pacing in sinus node disease: a register-based cohort study** 825
C. Michael Fored, Fredrik Granath, Fredrik Gadler, Paul Blomqvist, Jenny Rynder, Cecilia Linde, Anders Ekbohm, and Mårten Rosenqvist

- Routine follow-up after pacemaker implantation: frequency, pacemaker programming and professionals in charge** 832
Jacob W.M. van Eck, Norbert M. van Hemel, Willem G. de Voogt, Joan G. Meeder, Hans A. Spierenburg, Har Crommentuyn, Rens Keijzer, Diederick E. Grobbee, and Karel G.M. Moons on behalf of the FOLLOWPACE investigators

- The efficacy of ventricular pacing with device automaticity in paediatric patients** 838
Maren Tomaske, Paul Harpes, Natascha Woy, and Urs Bauersfeld

- Patient- and lead-related factors affecting lead fracture in children with transvenous permanent pacemaker** 844
Hasim Olgun, Tevfik Karagoz, Alpay Celiker, and Naci Ceviz

Atrial fibrillation

Source of inflammatory markers in patients with atrial fibrillation 848
Ioan Liuba, Henrik Ahlmroth, Lena Jonasson, Anders Englund, Anders Jönsson, Kåge Säfström, and Håkan Walfridsson

Association between statin therapy and reductions in atrial fibrillation or flutter and inappropriate shock therapy 854
Sanjeev P. Bhavnani, Craig I. Coleman, Charles M. White, Christopher A. Clyne, Ravi Yarlagadda, Danette Guertin, and Jeffrey Kluger

Repolarization

Cardiac repolarization during hypoglycaemia in type 1 diabetes: impact of basal renin–angiotensin system activity 860
Rikke Due-Andersen, Thomas Høi-Hansen, Charlotte Ellen Larroude, Niels Vidiendal Olsen, Jørgen Kim Kanters, Frans Boomsma, Ulrik Pedersen-Bjergaard, and Birger Thorsteinsson

Antibodies with beta-adrenergic activity from chronic chagasic patients modulate the QT interval and M cell action potential duration 868
Emiliano Horacio Medei, José H.M. Nascimento, Roberto C. Pedrosa, Luciane Barcellos, Masako O. Masuda, Serge Sicouri, Marcelo V. Elizari, and Antonio C. Campos de Carvalho

CASE REPORTS

Temporary pacing wire in the coronary sinus: a novel treatment of acute heart failure? 877
Faizel Osman, Karim Ratib, Suresh Krishnamoorthy, Adnan Nadir, John Creamer, and Adrian Morley-Davies

Duplicated coronary sinus with a connecting branch 880
Takumi Yamada, Hugh Thomas McElderry, Vance J. Plumb, Harish Doppalapudi, Andrew E. Epstein, and George Neal Kay

New method for cardiac resynchronization therapy: transapical endocardial lead implantation for left ventricular free wall pacing 882
Imre Kassai, Csaba Foldesi, Andrea Szekely, and Tamas Szili-Torok

Electrical storm in a patient with arrhythmogenic right ventricular cardiomyopathy and SCN5A mutation 884
Damir Erkapic, Thomas Neumann, Jörn Schmitt, Johannes Sperzel, Alexander Berkowitsch, Malte Kuniss, Christian W. Hamm, and Heinz-Friedrich Pitschner

Unusual electrocardiographic presentation of pacemaker battery depletion with lead failure: pacing spike, artefact or native QRS? A short communication 888
Farid Aliyev, Cengiz Çeliker, Cengizhan Türkoğlu, and Okay Abaci

Fatal left internal mammary artery graft to subclavian vein fistula complicating dual-chamber pacemaker implantation 890
Ignacio García-Bolao, Alfonso Macías, Jose Moreno, and Ana Martín

LETTERS TO THE EDITOR

Improvement in cardiac sympathetic nerve activity in responders to resynchronization therapy 892
Juan Carlos Gallego-Page

Improvement in cardiac sympathetic nerve activity in responders to resynchronization therapy: reply 892
Haran Burri, G.A. Somsen, and H.J. Verberne

Spinal cord stimulation and T-wave alternans 893
John E. Madias

Spinal cord stimulation and T-wave alternans: reply 893
Paolo Ferrero

IMAGES IN ELECTROPHYSIOLOGY

Successful internal defibrillation following unusual positioning of defibrillator lead 895
Peter J. Pugh and Jonathan R. Clague

Type I Brugada electrocardiogram pattern during the recovery phase of exercise testing 897
Alexander Grimster, Oliver R. Segal, and Elijah R. Behr
